1 CS 201 is a one-semester, accelerated course equivalent to the two-semester CS 115/CS 116 sequence.
2 Computer science electives: Any computer science course at the 300 -level or higher (including graduate CS courses) may be used as a computer science elective, except CS 401 and CS 402 . ECE 218 and ECE 441 may also be used as computer science electives. Higher mathematics or computational science courses at the 300-level or above can also be used as computer science electives, with CS department approval. Students pursuing the data science specialization may only apply the two required computer science courses toward this requirement.
3 Science electives (no lab required): Chosen from the natural sciences (biology, chemistry, material science, and physics), or courses marked with an ( N ) (natural science attribute) in the Undergraduate Bulletin. At least one course must be in a field other than physics.
The Bachelor of Science in Computer Science degree is accredited by:
